

Company Profile

OUR COMPANY

CHRONOGRAFIKI S.A. is a leading technology solutions provider, founded in 1974 by the Charagionis family. The company specializes in the design and implementation of advanced time management systems, including employee attendance, timestamping, building-wide clock networks, and access control solutions – delivering innovative technologies that support the digital transformation of modern businesses.

In this field, CHRONOGRAFIKI S.A. proudly represents the multinational corporations AMANO (Japan) and SYNEL (United Kingdom).

In 1980, CHRONOGRAFIKI pioneered the introduction of electronic weighing systems to Greek enterprises, becoming the first company to bring digital weighing technology to both commercial and industrial applications. This milestone was achieved through its exclusive partnership with the renowned Japanese manufacturer DIGI TERAOKA SEIKO.

Founded in 1925, DIGI TERAOKA SEIKO is a global leader in weighing, labeling, and packaging technologies, holding a prominent share of the international market today.

OUR COMPANY

With over half a century of operation in the fields of time management solutions and electronic weighing, CHRONOGRAFIKI S.A. has gained extensive experience and deep expertise in these sectors. This long-standing know-how has earned the trust of the major retail enterprises in the Greek market, as well as numerous businesses for which weighing is an essential part of their daily operations.

CHRONOGRAFIKI S.A. holds a leading position in the field of electronic weighing systems, with a market share exceeding 80% of the scales installed in major supermarket chains and food retail businesses across Greece.

Through long-term partnerships with our clients, we continue to deliver innovative automation products in the weighing sector, integrating cutting-edge technologies such as Electronic Shelf Labeling (ESL) systems, which significantly enhance customer experience and overall service efficiency.

Supporting this ongoing effort is our trusted partner, DIGI TERAOKA SEIKO, whose century of expertise in weighing technology drives the development of solutions that automate processes, reduce customer service time, and improve the overall image and performance of retail operations.

OUR COMPANY

Our in-house software development department provides us with the flexibility and adaptability to offer integration solutions that connect weighing systems with the commercial and industrial applications used in the Greek market.

Our expertise, recognized by DIGI TERAOKA SEIKO, has enabled us to gain access to all the necessary tools and mechanisms for the development of control and data management software for weighing instruments and electronic shelf labels. This software, developed by CHRONOGRAFIKI S.A., is a global innovation in its field.

Furthermore, due to our long-standing cooperation and mutual trust with DIGI TERAOKA SEIKO, CHRONOGRAFIKI S.A. has been entrusted with the role of consultant in the design and development of new models and solutions intended for the global market.

ASSOCIATES

CHRONOGRAFIKI S.A. is an authorized representative for a wide range of industry-leading companies, providing comprehensive solutions in machinery and specialized professional equipment.

By collaborating with internationally recognized brands, the company ensures high-quality, state-of-the-art products that meet the needs of businesses and organizations, backed by reliability, efficiency, and prompt support.

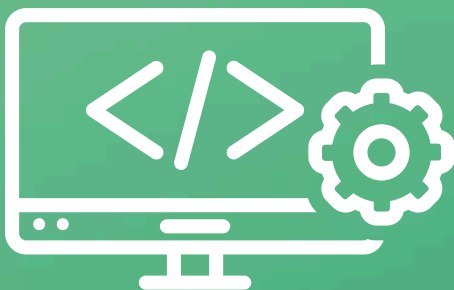

TECHNICAL SUPPORT

CHRONOGRAFIKI S.A. has had as its slogan since its inception: "HIGH TECHNOLOGY - HIGH SERVICES".

Since its establishment, CHRONOGRAFIKI S.A. has embraced the motto: "Evolving with technology, committed to excellence" Driven by a commitment to providing its clients with high-standard products and services, the company has developed a well-organized Technical Support Department, dedicated to delivering expertise and comprehensive technical solutions.

Our specialized technical staff undergoes continuous training both in Greece and abroad, ensuring they are fully informed about emerging technologies and industry advancements.

The department is responsible for the installation, configuration, and technical support of all equipment supplied by the company, guaranteeing prompt and reliable service across Greece.

In addition to technical support, CHRONOGRAFIKI S.A. operates an in-house Software Development Department, which works in close collaboration to design and implement commercial and industrial applications.

It is worth noting that these departments manage a high volume of daily phone calls and emails, always aiming to provide the highest level of customer service and support.

CHRONOGRAFIKI also provides:

- **Highly qualified staff**
with ongoing consulting services and training.
- **Genuine spare parts**
for the entire range of products
- **Telephone Support**
with specialized advice and guidance
- **Technical Support**
at your place without delays and exorbitant charges

TIMELINE AND MILESTONES

And we continue!

HISTORY OF SUCCESS

We are the first company in Greece to present:

- ✓ **Staff time clocks**
- ✓ **Retail sales scales with label issuance**
- ✓ **Retail sales balances in a network**
- ✓ **Priority queue system with direct connection to the buses**
- ✓ **Cashier Scales - Scanner Scales**
- ✓ **Wi-Fi enabled devices with wireless network connectivity**
- ✓ **ESLs (Electronic Shelf Labels) online and managed by Libra**
- ✓ **Scales in a rolling salesperson connection with the ability to immediately update the POS**
- ✓ **Overhead electronic Slaughterhouse Orbital Scales**
- ✓ **All in one Packaging, Weighing and Labeling Machine using Stretch Film**
- ✓ **All in one Packaging, Weighing and Labeling Machine, Tray Sealing type with gas flush (M.A.P)**
- ✓ **DIGI's global innovation with Linerless continuous label scales without rice paper and with Autocutter automatic cutting system**
- ✓ **AI - Powered Smart Recognition Scale**

Purpose & Vision

Our Purpose

Our goal at Chronografiki SA is to provide our customers with innovative technology and services. We constantly invest in them while constantly updating ourselves on market trends, shaping and reshaping our strategies.

We place special emphasis on providing high-quality products and high-speed services, striving to effectively support our customers.

With a 50-year legacy, we are a company you can trust. Partnering with skilled professionals who share the same vision of offering the leading products and services in the market.

We are always at the forefront of new technologies, market changes and innovative products that add value to the end user. Our latest products are directly related to sustainability and produce the smallest possible footprint.

Our Vision

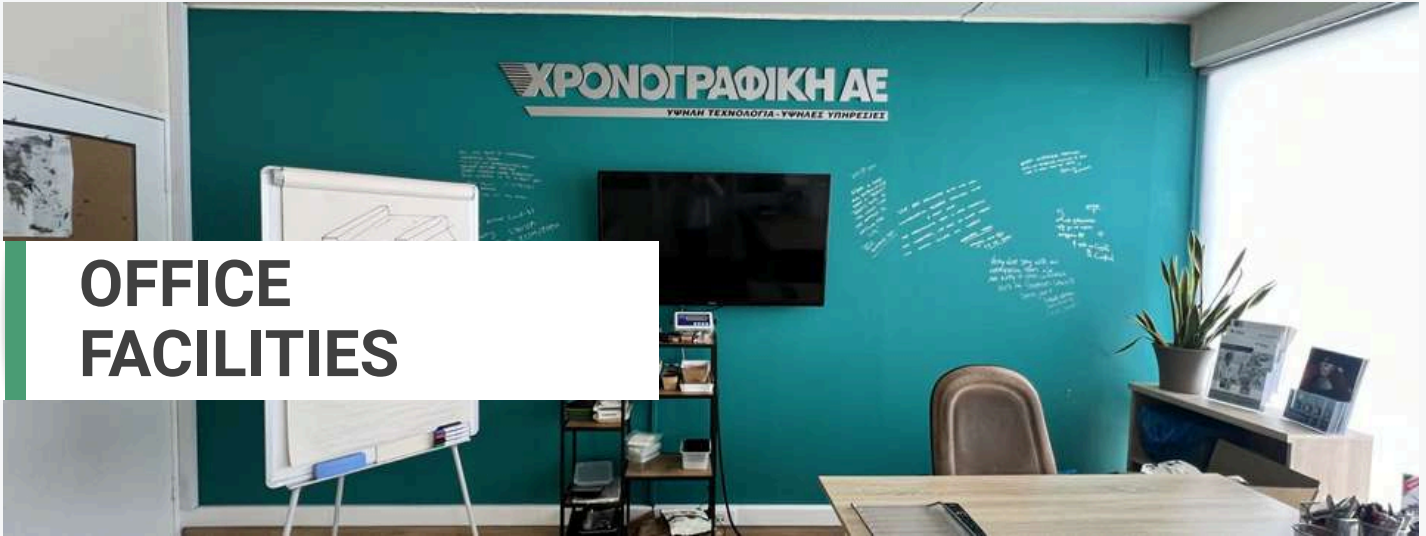

Consumer awareness of environmental sustainability is growing, and addressing environmental issues has become an important factor for companies in the fight to win the trust of their customers. Before any other company, we committed to reducing our environmental footprint, introducing and investing in products and solutions that produce zero waste or at least significantly reduce waste. For example, products like our Linerless labels have reduced CO² emissions by more than 30 tons in the last decade!

Goals

CHRONOGRAFIKI S.A.'s advanced products and technology have been supporting retailers in enhancing their environmental initiatives for many years, while we continue our commitment to this vital goal with:

- 01** Minimal use of plastic materials
- 02** Working with consumers on environmental sustainability
- 03** Reducing food waste in stores and homes
- 04** Reducing environmental footprint and operating costs

OFFICE FACILITIES

Today, the company's headquarters are located in Athens, in a 5-story, 2000 sq m building.

CHRONOGRAFIKI S.A. also has branches in Thessaloniki and Crete, a 1000 sq m Logistics Center as well as a network of representatives in all cities of Greece.

RND (SOFTWARE HOUSE)

CHRONOGRAFIKI S.A. has an In-House Software Production and RnD department. We provide our own network software that we can easily adapt to the specific needs of each client. Our software has been connected to all major POS systems (IBM, SIEMENS-NIXDORF, SINGULAR, etc.) and of course it is possible to connect it to any other relevant software.

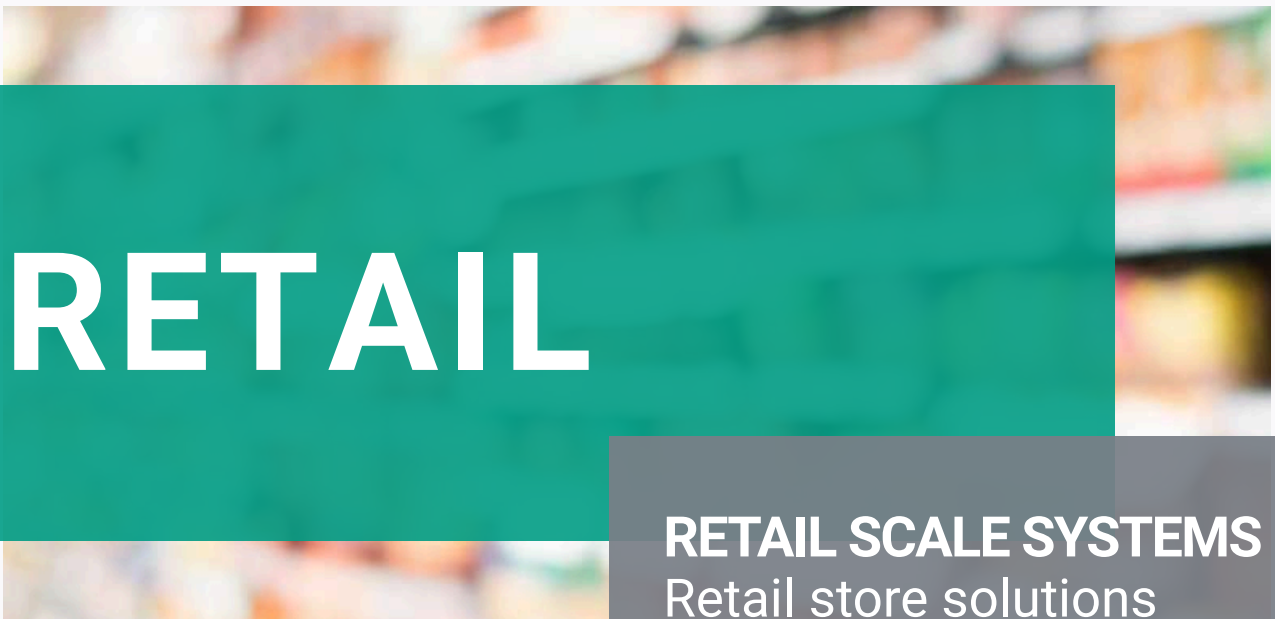

Since 2019, we have introduced the company MIK3 S.A. to the CHRONOGRAFIKI S.A. group. MIK3 S.A. is a dynamic IT company with three decades of experience.

CCL-SCO Self Checkout System - Automatic customer service cashier system

INDUSTRY

INDUSTRIAL WEIGHING
SYSTEMS

INDUSTRIAL

Industrial Weighing Systems

Desktop electronic scales for weight control, piece counting, precision.

Floor-standing electronic scales (weighing scales) & weighing platforms.

Stand Alone weighing labelers.

Automatic weighing labelers for production line.

INDUSTRIAL

Industrial Weighing Systems

Weight checkers for production line.

Weighing digital indicators & terminals.

Industrial weighing station equipment - traceability.

Industrial overhead weighing beams for meat handling.

Crane scales & weighing pallet trucks.

INDUSTRY

PACKAGING SYSTEMS &
OTHER SYSTEMS

INDUSTRIAL

Packaging Systems

VACUUM

Benchtop, floor-standing, single or double chamber & automatic packaging lines with shrink & drying systems.

WRAPPER STRETCH FILM

Stretch film packaging machines with weighing and printing capabilities.

L-SEALERS

Automatic horizontal packaging machines with heat shrink.

SLEEVE WRAPPERS

Automatic open-side packaging machines with heat shrink.

INDUSTRIAL Packaging Systems

FLOW PACK

Automatic horizontal packaging machines.

THERMOFORMING

Automatic packaging machines for thermoforming flexible or rigid containers, in vacuum, M.A.P. modified atmosphere and SKIN skin packaging.

TRAYSEALER

Automatic packaging machines for container heat sealing, vacuum, M.A.P. modified atmosphere and SKIN skin packaging.

PALLET WRAPPERS

Automatic pallet wrapping machines with stretch film.

VFFS

Automatic vertical packaging machines.

INDUSTRIAL

LABELING, MANICURE, PRINTING & ENGRAVING SYSTEMS

LABELLER

Automatic labelers for paste-only and/or print-only production lines.

LASER

Engraving systems.

SLEEVE

Automatic machines for placing & wrapping sleeve-type labels on containers.

INDUSTRIAL

METAL & FOREIGN PARTICLE DETECTION SYSTEMS

METAL DETECTOR

Automatic detection systems for all metals.

X-RAY

Automatic foreign particle detection systems.

INDUSTRIAL

FOOD PROCESSING MACHINES

Dicing machines, steak cutters and brine acupressure machines.

Meat barrels, refrigerated, vacuum.
